

### New Design Ultrasonic Mist Generator Air Innovative Humidifier

This New design ultrasonic mist generator air innovative humidifier can adjust the humidity output, high efficiency and low energy consumption, Automatic power off when water tank is empty, night light in the tank of visibility at night. Removable water tank for easy carrying and filling.

Model: RD112

#### Product Description

The information of NEW design ultrasonic mist generator air innovative humidifier :

Model No.	RD112	Inner box	18.5*18.5*31cm
Voltage	100-240V 50HZ	Carton	38.5*38.5*32.5cm(4pcs)
Power	25W	Qty/container	2432/ 4864 / 5760pcs
Capacity	2.5L	MOQ	1000White box/3000Color box
Mist output	300ml/h	Lead time	35-40 days after receipt of deposit

Product size	18*18*30cm	Delivery term	FOB Ningbo,China
Approval	ETL,GS,CE,RoHS	Payment	30% deposite, 70% paid after inspection before shipment
Features			
1) Mist output adjustable		2) Low power consumption	
3) Power indicator light		4) Removable water tank	
5) Selectable resin filter		6) Selectable nano-silver water tank	
7) Automatic power off when water tank is empty			

### **Why use the NEW design ultrasonic mist generator air innovative humidifier?**

Humidifiers can be particularly effective for treating dryness of the skin, nose, throat, and lips. Humidifier is a must-have appliance in the home especially in winter.

### **The advantages of NEW design ultrasonic mist generator air innovative humidifier:**

1. A huge water tank capacity of 0.66 Gallon/5L allows the humidifier to run uninterrupted for up to 18 hours
2. The dial allows for varying the amount of vapor depending on the size of the room and the season.
3. Soft light can relieve stress and fatigue and build a warm mood
4. The humidifier will automatically shut off when water runs out to protect itself from damage and keep you safe.

### **Installation of NEW design ultrasonic mist generator air innovative humidifier:**

take out the water tank  
 rotate the water cap from the bottom of water tank base  
 add enough water in water tank  
 rotate the cap

put back the water tank  
turn on the switch
